SUMMARY

Recent software development graduate with solid experience in Java, Python, and front-end technologies. Skilled in building scalable applications, writing clean code, and debugging complex problems. Eager to contribute technical expertise and problem-solving skills in an entry-level software developer role. Highly motivated to grow, learn, and deliver impactful solutions in a collaborative environment.

EXPERIENCE

Business Development/Application Developer Intern
All My Friends Are Artists — July 2025 - August 2025

· Supported business goals by collaborating on the development of a web application focused on enhancing artist engagement and accessibility.
· Collaborated with a Google Senior Software Engineer to develop scalable infrastructure and improve artist-focused tools
· Building scalable, user-friendly features to enhance artist accessibility and improve site functionality.
· Built and deployed user-facing features in Ruby on Rails (e.g., newsletters, discussion posts) with rich text editing support.
· Led competitive analysis of digital art platforms to shape AMFAA's positioning and growth strategy.

Software Engineer Intern
The Drivers Cooperative (SWYF) — July 2024 - August 2024

· Enhanced web applications and integrated APIs to optimize the Driver Benefits Portal.
· Managed data using Zoho Creator, Swagger, Postman, and MongoDB.
· Deployed APIs on AWS and collaborated with stakeholders for seamless development.

Librarian
Brooklyn Public Library (Macon Branch) — July 2020 – August 2020

· Assisted with event hosting, library management, and software applications.

Office Intern
Brooklyn Navy Yard (Employment Office) — February 2018 – May 2018

· Supported office operations, gaining career skills in a professional environment.
